Campus Groups
What is Campus Groups (CG)?

- All-in-one eng. student-centric communication platform:
  - Connect students to RSOs and College, and Department resources
  - Email and cell (push) communication capabilities
  - Calendar of events
  - Website (internal and external) with document repository, pay dues, attendance, surveys...
Why are we implementing CG?

- The College wants to better support co-curriculars (you)
- Student leaders and departments want it

Why join CG?

- Increase visibility - More members!
- Funding requests (EC, EDC, Alumni/Corp) through CG - More $!
- Consolidate your events and calendars
- Better communicate with RSO’s, administration, other students
Gies Groups Sample

https://giesgroups.illinois.edu/login
College of Engineering Group Types

- Registered Student Organizations (RSOs)
- Departments/Majors
- College Services and Resources
- Alumni
Registered Student Organizations (RSOs)

- Registered with EC for CG access
  - Want to keep an engineering focus
  - EC criteria must be met
Departments/Majors

- Aerospace Engineering
- Agricultural & Biological Engineering
- Bioengineering
- Chemical & Biomolecular Engineering
- Civil and Environmental Engineering
- Computer Science
- Electrical and Computer Engineering
- Industrial & Enterprise Systems Engineering
- Materials Science & Engineering
- Mechanical Science & Engineering
- Nuclear, Plasma, Radiological Engineering
- Engineering Physics
- ILEE
- Engineering Undeclared
College Services and Resources

Engineering RSO Support

College Undergraduate Programs Office Advising

Engineering Career Services (ECS)

Center for Academic Resources in Engineering (CARE)

International Programs in Engineering (IPENG)

Undergraduate Research

Technology Entrepreneur Center (TEC)

City Scholars

IEFX (includes ENG 100)

Transfer students (includes ENG 300)

ARISE

Women in Engineering (WIE)

Morrill Engineering Program (MEP)

Engineering International Student Programs (EISP)

James Scholar

Next Steps

- Send us Exec Board Information - via Google Sheet
  - Need name, email, position, society
  - Send **BEFORE** semester ends!
- Dean Jassim will send instructions/permissions over the summer (by end of May)
- Once you are added to CG, you can add the rest of your society members
- You can embed your websites in Campus Groups (you can keep your URL)
- Everything will be ready by August 19th, 2019
WHEN YOU’RE WAITING...

Outstanding Society of the Year:
Pi Tau Sigma
International Student Panel
Engineering Employment EXPO

- EXPO is looking to host an exclusive networking night close to the career fair for international students
- Part of this night is planned to be a student & alumni panel
- We are looking for alumni who were international students at UIUC to participate as panelists

Illinois Medical Advancements through Design and Engineering (i-MADE)

Gianna Mizzi, Kristin Slaughter, Daniel Rosen, Matthew Rosenbaum
Our Mission and Structure

- Complete global and community health projects
- Apply engineering knowledge to develop medical technology hands-on
- Include designers from a variety of engineering backgrounds
- Provide interactive workshops and support project teams
- Create a collaborative and innovative community
Our Impact

- Enable all students from The Grainger College of Engineering to participate in medical-related design teams
- Create a larger network of experienced professionals to support student ideas and projects
- Promote and represent the University of Illinois in design competitions
- Encourage the integration of other societies by hosting technical workshops and networking with other project based societies
Illini Urban Farmers
HELLO!

We are Matthew Mote and Jane Halloran

We are here to help our RSO become a contributing member of Engineering Council.
History

- Formed in 2016
- The past exec boards only recruited juniors and seniors to the club
- This unsustainable model resulted in several failed attempts to keep the club going
What will we do differently?

Research Credit
We have partnered with ABE faculty and have agreed members are eligible to receive technical elective credit for involvement in the club.

Outreach
Being such a new and growing field (pun intended), Urban Agriculture needs exposure to expand interest among both current and prospective students.

Collaboration
ABE has an interesting reach being both Engineering and ACES. Using this reach, we would like to work with anyone who thinks Urban Ag is interesting.
Long Term Goals

- Increase production
- Change curricula to reflect industry changes
- Bolster campus sustainability
- Implement a CSA program
- Become a self-sustaining enterprise
- Mechanize growing process
thanks!

Any questions?

Semester Goals

2 General Meetings

- Technical Workshops
  - CTF Competitions
- Networking
  - On-Campus Research Opportunities
  - Off-Campus Internship & Job Opportunities
  - Company-hosted Workshops
- Socials
End Game

- Recruitment
  - aim to gain exposure
- Advance knowledge in Cybersecurity
  - technical aptitude
- Conference
  - scholarships
  - research presentation
Engineering Council

- EOH
  - outreach, present, compete
- Funding
  - travel scholarships
- Seat on Engineering Council
  - get our student chapter, now an RSO, recognized on this campus as Engineering related

Solar Decathlon
Suspension Decision
What do we do?

- Design and Build a environmentally sustainable net-zero home.
- Create smart energy production systems that provide solutions to real world problems.
Rejoining Engineering Council

- Suspension Causes
  - Missed GMs
  - Missed Volunteer Hours

- Reasons for Rejoining
  - Funding privileges

- Future Plan
  - Organization
  - Utilizing Early Volunteer Opportunities

Constitution Changes
Link to Vote

https://forms.gle/nwPrQtD1Jyb4kkZQ9
EIB to EOB

Engineering Outreach Bureau

- “Engineering Information Bureau” is confusing and does not properly define the functions of our group
- Our focus revolves around outreach to prospective students
- The only thing that would change is the name for every occurrence in the Constitution
Proportional Voting for EC Elections

Purpose: to keep any single entity from gaining a vast majority of the vote for elections

Bylaw 709 Sections 8 & 9

8. The candidate receiving the most votes shall be declared the winner. In the event of a tie, the presiding officer (the Elections Chair) shall cast the deciding vote by secret ballot.

9. Each individual actively sitting on the EXPO, EIB, SITE, EWEEK, and EOH Committees are also eligible to submit an additional vote for a candidate running for their respective director(s) up until the end of the voting period.
Proportional Voting for EC Elections

**Purpose:** to keep any single entity from gaining a vast majority of the vote for elections

*Bylaw 709 Sections 8 & 9*

8. Voting will be based on a proportional system, with the executive board holding 20% of the vote, the respective EC committee holding 20% of the vote, and societies holding 60% of the vote.

9. Each individual actively sitting on the EXPO, EIB, SITE, EWEEK, and EOH Committees are eligible to submit one vote for a candidate running for their respective director(s) up until the end of the voting period. They make up the “committee” proportion of the total vote.

10. The candidate receiving the largest proportion of the total vote shall be declared the winner. In the event of a tie, the presiding officer (the Elections Chair) shall cast the deciding vote by secret ballot.

Funding Spotlight
Secretary Treasurer
Year in Funding 2018-19

1. Funding Spotlights
2. Total societies funded 33
3. Total amount funded $22,187.14

Funding breakdown
Joint: $2,815
Program: $8,283.39
Conference: $11,088.75
Illinois Water Day 2019
Leaving No One Behind

- Water sanitation & hygiene in developing nations
- Gender & water access
- Predicting & mitigating effects of droughts
- Water access at local & regional levels
Discussion (Optional)

Future GMs
Campus Groups
Future GMs

- What does the ideal GM look like for your organization?
- What features in past GMs have been helpful?
- How could you use GMs as a platform for your organization?
- What are the current barriers to achieving these goals?
- What could be included in GMs to make it more informative and helpful for your organization?
Campus Groups

● How clearly do you understand what Campus Groups is and how it can be used?
● How likely is your organization going to use Campus Groups?
● What aspect of Campus Groups do you think your organization will use most/least?
Other thoughts?
